Keep The Jungle Alive

David Hasselhoff

We've gotta clean it up
We've gotta 'green' it up
We've gotta stop pollution somehow
We need a world solution
A revolution
To stop pollution right nowWe're killing all the trees
We're killing all the seas
The fish and animals cry
"hey! what you doing man
You'd better find a plan
Or else all of us will just die", yeah yeahThe world will never last
It's disappearing fast
So what do governments do?
They're more concerned with profit
So they won't stop it
It's up to me and you to keep the jungle aliveKeep keep the jungle aliveThe politicians smile
They tell us "wait a while
We've got the matter in hand"
They keep on dumping waste
We're running out of space
Their heads are buried deep in the sandI hear a call from nature
It says "i hate ya
I'm talking to you mankind"
You've gotta think of your children
And your children's children
And the mess you're leaving behind, yeah yeahFor all our good inventions
And our good intentions
The world is getting worse by the minute
The air is full of smoke
It makes you cough and choke
Pretty soon there won't be anyone in it, keep the jungle aliveKeep keep the jungle aliveIf we don't screw it up
If we don't chew it up
Then maybe we will survive
You're on a crucial mission
All you politicians
Gotta keep the jungle alive, keep the jungle aliveKeep keep the jungle alive
