All My Love

Ryan Leslie

Something about the way you look at me
Tells me that I just might be worthy
Of feeling you despite uncertainty
Despite the way that you might hurt meI wanna take your love and mix it with mine
And maybe have a cocoa baby
I just wanna put this all on the line
Make sure that you appreciate meIf it's a question of your pride
Put that thing aside
Just let your guard down now
Lemme show you how much I want youOh, take my hand and dim the light
For the rest of the night
We'll be making love
The way that we're supposed to, yeahI wanna give you all my love
Even if I don't have all your trust
I wanna give you all my love
Even if I don't have all your trustI know it's hard to trust me, why should you?
Especially after what you've been through
I know it's hard to believe, I'm not the same
You think about it when I'm with youEverything that he did, throw it away
'Cause I know how to love you better
Give me your heart, the past will fade
And we gon' get it right togetherIf it's a question of your pride
Then put that thing aside
Just let your guard down now
Lemme show you how much I want youBaby, just take my hand and dim the light
'Cause for the rest of the night
We'll be making love
The way that we're supposed toI wanna give you all my love
Even if I don't have, yeah, all your trust
I wanna give you all my love
Even if I don't have all your trustI'm thinking we should
I'm thinking we should turn the lights down
I'm thinking we should
I'm thinking we should turn the lights down, yeahI'm thinking we should
Thinking we should turn the lights down
Turn them down, turn them down
Turn them down'Cause I wanna give you all my love
Even if I don't have all your trust
I wanna give you all my love

Even if I don't have all your trust
