Stay

Destine

Take any memory with you
All that you know
It's time we gave our sins away
I hear the train is coming to lead you in
To take your past regrets awayI can't turn the dark to light
And you can't see we're losing this fight
Well I won't bring the dead to life
It's time for me I asked you politely
Stay with me
Don't stray from me
Oh won't you stay with me
Don't stray from meTake any melody with you
All that you know
This time we'll give ourselves away
One eye on the horizon, we're closing in
You know there's nowhere left to goI can't turn the dark to light
And you can't see we're losing this fight
Well I won't bring the dead to life
It's time for me I asked you politely
Stay with me
Don't stray from me
Oh won't you stay with me
Don't stray from meYeah, yeah, yeah, yeah
Oh if I could reach you for a second
Yeah, yeah
Get the torment over
Yeah, yeah, yeah, yeah
But there's something in you that won't go awayI can't turn the dark to light
And you can't see we're losing this fight
Well I won't bring the dead to life.. (Oh)I can't turn the dark to light
And you can't see we're losing this fight
Well I won't bring the dead to life (Oh)
It's time for me I asked you politely
Stay with me (I can't turn the dark to light)
Don't stray from me (And you can't see we're losing this fight)
Oh won't you stay with me (Well I won't bring the dead to life)
Don't stray from me (It's time for me I asked you politely)
Stay with me (yeah, yeah, yeaaah)
Stay with me (yeah, yeah, yeaaah)
