Running With Scissors

Civic

This open sky is painted blue
These curtains kissing in your room
This is the letter I'm gonna send
This is a property condemned
The sleeping hearts
Never understand
Can't hear the song until you dance
We run with scissors in our hands
Ooh, I can feel you in my bones
These are symptoms that I've shown
It's always ever now and then
Life is unusual again
The sleeping hearts
Never understand
Can't hear the song until you dance
We run with scissors in our hands

The sleeping hearts
Never understand
Can't hear the song until you dance
We run with scissors in our hands
So don't ask me for a reason
Don't leave me for a reason
Don't look for me cause I'm runnin'
To fast
The sleeping hearts
Never understand
Can't hear the song until you dance
We run with scissors in our hands
The sleeping hearts
Never understand
Can't hear the song until you dance
We run with scissors in our hands
