Time Bomb, Baby

Powerman 5000

The news man said it's the end for me and you
There's nothing left for us to say or do
Some shine on and some are paranoid
Some we embrace but you we just avoid
(Cause everybody knows)
You're like a time bomb, You're like a time bomb
You blow up on the spot then you move on
You're like a time bomb, You're like a time bomb
That ticking in your head's got you all wrong
(Come on)
You're running out, you're running out
You're running out, you're running out
You're running out, you're running out
You're running out, you're running out
Bridges burn and cities explode
Shadows haunt at the end of the road
There's a place that's called catastrophe
It's the perfect spot for you and me
(Yeah)
You're like a time bomb, You're like a time bomb
You blow up on the spot then you move on
You're like a time bomb, You're like a time bomb
That ticking in your head's got you all wrong
You're like a time bomb, You're like a time bomb
You blow up on the spot then you move on
You're like a time bomb, You're like a time bomb
That ticking in your head's got you all wrong

(Come on)
You're running out, you're running out
You're running out, you're running out
You're running out, you're running out
You're running out, you're running out
Here comes the sun
There goes the night
Everybody's doing it and doing it right
Here comes the sun
There goes your life
Everybody's feeling and they're feeling alright

Lets go
You're like a time bomb, You're like a time bomb
You blow up on the spot then you move on
You're like a time bomb, You're like a time bomb
That ticking in your head's got you all wrong
Time bomb, a time bomb baby
Time bomb, time bomb
You're like a time bomb, a time bomb baby
Time bomb, (time bomb)
Time bomb, (time bomb)
You're like a time bomb (time bomb)
Time bomb, (time bomb)
Time bomb
Time bomb
Time bomb
Time bomb
