Sail Away

Mason Proffit

Watchin life's waters rollin
watchin my ship sail again.
I know my island is waiting
waiting where our love can ride the wind.

And we all can sail together
and we all can sail a different way.
But I know my island is waiting
and in time we can all sail away.

And we all can sail together
and we all can sail a different way.
But I know my island is waiting
and in time we can all sail away.
