

Teenage Female

Matthew Sweet

She sent me a letter just the other day
She said, "This is a record that I like to play
Yeah, this is a sound that I'm sure I enjoy
Sadly, though, I am without a boy" Now if I am jealous I hope it doesn't show
Maybe it's something I'm not meant to know
But could I ask you about the ring
That you wore in the video on TV I am a teenage female
I am a teenage female Who ever reads this may not understand
I am not your typical fan
Music is something that I need
So tell me please, I don't want to plead I am a teenage female
I am a teenage female If I am jealous I hope it doesn't show
Maybe it's something that I'm not meant to know
But could I ask you about the ring
That you wore in the video on TV I am a teenage female
I am a teenage female Teenage
