Unstable

Level

Yesterday I turned into a mess of jello
When she smiled at me
All red in the face
She enjoyed the awkwardness of my hello
At least I think she
This is becoming routine
This reversion of me
Into a child with no vocabulary
Say just what I mean
Cause I get unstable
And I'm so not able
To conversentuate
When I'm around her
I get more unstable
I don't think she relates
So how's your day
Or hey how does a game of scrabble sound
Could you shoot me now
And could I be more lame
Cause I'm the boring kid when she's around
And play with a crown from burger king
If I could have it my way
Around me she'd get nervous too
But always so eloquent
I just hope I come off cute
Cause I don't know what to say to her
Cause I get unstable
And I'm so not able
To conversentuate

When I'm around her
I get more unstable
I know she can't relate
Cause I get unstable
And I'm so not able
To conversentuate
When I'm around her
I get more unstable
I don't think she relates

This is becoming routine
This reversion of me
Into a child with no vocabulary
And I don't know what to say to her
She makes me unstable
And I'm so not able
To conversentuate
When I'm around her
I get more unstable
I know she can't relate
I'm unstable
And I'm so not able
To conversentuate
When I'm around her
I get more unstable
Can anyone relate
Can anyone relate to what I'm saying
When I get around her I get more unstable
