Missile

Quaisoir

So you came like a missile
Falling on my head with the black sky
Think you're giving but you're taking my life away
Then you came with your breeze blocks
Smashing up my face like a bus stop
Think you're giving but you're taking my life away
Like the drunk you convinced was sober
You keep me falling over
(In the daylight)
Think you're giving but you're taking my life away
With the best of intentions
You tried to give an ocean direction
Think you're giving but you're taking my life away
So you came like a missile
Leaving me the whole world in exile
Think you're giving but you're taking my life away
Like the drunk you convinced was sober
You keep me falling over
(In the daylight)
Think you're giving but you're taking my life away
Think you're giving but you're taking my life away
