Green Eyed Monster

The Slingshots

How does it feel
to be under the eyes
watching so closely
buy what you can't have
what'd you have
wish I could everything you have
and you wonder where your friends have gone
how's it feel to have
just a few ones
wish you had more than the one you had
everything that you ever had
[Chorus:]I wish I could find a way
to wish it all away
and all that you want from me
can disappear
with your jealousy
How does it feel
to be under the eyes
watching closely

buy what you can't have
what'd you have
wish I could everything you have
and you wonder where your friends have gone
how's it feel to have
just a few ones
wish you had more than the one you had
everything that you ever had
[Chorus]Green eyes watching you
wishing they could be all of you
wait a little moment, take from me
everything they take from me
[x3][Chorus]
