Sweet Wet Dreams

Mando Diao

I'm alone, together with sweet wet dreams
Don't let go never lose it, just holding on to sweet dreams
You were the one to open up me
Long time ago, so far away
No I don't want to get down on my knees
I'm letting my mind just drift awayI'm a alone, together with sweet wet dreams
Don't let go never lose it, just holding on to wet dreams
Left you because you came too close to me
I just couldn't take the blame you gave
But I can forget how we held each other up
I want you but only for your sparksI'm a alone, together with sweet wet dreams
I'm a alone, together with sweet sweet dreamsI'm alone, here I stay, just holding on to sweet dreams
Don't let go never lose it, just holding on to wet dreamsYou and me babe, all alone,
in a cold (dusty) room far away
We can make it together
(we'd be free) in that room
Give me back, all alone,
We can't make it together
(we'd be free) in that room
Too alone to deny it
Making love with each other
Oh wet dreams
Holding onto the sweet wet dreams
