Garbage

Infinite Number of Sounds

All the garbage that you have thrown away,
Is waiting somewhere a million miles away.
Your condoms and your VCR,
Your Ziploc bags and your fathers car,
Dark and silent it waits for you ahey.
So much garbage will never ever decay
And all your garbage will outlive you one day.
You should sign a fancy signature to your massive mercy portraiture.

Making so much garbage each and every day.
We make this shit for you to throw away.
A-In plastic rooms and factories,
For you to dispose of as you please,
Cause dark and silent it waits for you ahey.

With stomaches full of oil and vinegar
With stomaches full of oil and vinegar
With stomaches full of oil and vinegar hey hey

With stomaches full of oil and vinegar
Stoma-aches full of oil and vinegar
With stomaches full of oil and vinegar hey hey
