

# Just Say I'm Right

## Art of Fighting

Tonight while the edges of our room here fail in light  
I try to take the best of you and make it mine  
But I just break you like a memory in time  
I don't want to lose you  
So just say I'm right  
Do do do

Tonight while the edges of our room here fail in light  
I try to take the best of you  
Yeah I'll give you the time if you need it tonight  
You're always losing to the edge of the night  
You gotta slow down  
Yeah I'm right beside you now  
By the time I wake you'll be no-one I know  
Just a see through shadow at the bedroom window  
In this light no way not a chance that I'll know  
Yeah I'm right beside you now  
Just say I'm right
