

# Waiting for the Moon

## Tindersticks

We know this place  
Where we are doesnt matter  
We know this place  
Weve been here beforeThe stars are out  
Waiting for the moon  
The stars are out  
Waiting for usPull the blanket now  
Creep down the stairs  
Dont wake the little ones  
The lazy cats, the mice are in their homesThe stars are out  
Waiting for the moon  
The stars are out  
Waiting for usEase this raging mind, this raging love  
Sometimes it feels like a knife  
But not tonight  
Sometimes it turns like a knife in me, not tonightThe stars are out  
Waiting for the moon  
The stars are out  
Waiting for us
