

# So In Love

## Az Yet

as we stroll along together  
holding hands walking all alone,  
    wee doo wee doo  
    so in love are we two,  
    that we dont know what to do,  
    so in love,  
in a world of our ownas we walk by the sea together,  
    under stars twinkling high above,  
    wee doo wee doo  
    so in love are we two,  
    no one else but me and you  
    so in love,  
    so much in love,  
    so in love,  
so much in love,we stroll along together  
    i tell you, i need you oh so much  
    i love, i love you my darling,  
can you tell it in my touchas we walk down the aisle together  
    we will vow to be together till we die  
    so in love are we two just cant wait to say i do,  
    so in love  
    in a world of our own  
so in love, are you and ibabe i hope you realise you mean so much to me  
    your everything i ever wanted in a women  
        to touch, to feel ur body close to me  
        i just wana hold u in my arms forever  
i love you babyas we walk down the aisle together  
    we will vow to be together till we die  
    so in love are we two just cant wait to say i do,  
    so in love  
    are you and i  
so in love are you and iso in love (repeat till fade to end)
