# Spacehead

## The Primitives

So you think I've got a problem
So you think it's all to clear
Got fucking mental disorder
Where's the fucking order around here?
I'm a spacehead, I'm not a stupid head
I am a spacehead, just open minded
Spacehead, spacehead
Why when I cry do I hang my head down low?
How do you move so fast but think so slow?
[Incomprehensible] things I'll never know
Hang my head in the wave and let it flow
I'm a spacehead, I'm not a stupid head
Just open my head
I'm a spacehead, spacehead
Dancing in the light
And the teacher says I'm a spacehead
Smoking in the church
And the preacher says I'm a spacehead
The books are burning fast
The books are burning fast
I bet you know just what I'm saying
Or maybe I am saying something else
The next decision that you make
Is probably gonna be a big mistake
I'm a spacehead and open up your head?
I'm a spacehead, I'm just open minded
Spacehead, spacehead
Spacehead, spacehead
Spacehead, spacehead
Spacehead, space
