

# Stand Still

[Billy Ray Cyrus](#)

When I was just a little boy, I wandered through the woods  
Searchin' for my daddy through the pines  
I guess I took a wrong turn somewhere along the way  
But the Bible said, "Seek and ye shall find"  
Daylight turned to darkness, adventure turned to fear  
And when I finally found my way back home  
His words I still can hear  
Stand still when you're in the dark  
Listen to your heart and pray for God's will  
Stand still, adrift in the wind  
Your voice within will be your best friend  
Stand still and pray, stand still  
Now that I'm a grown man on my own and on my way  
I've got my own decisions to be made  
And when I'm at the crossroads, unsure and unforeseen  
I bow my head and with these words I pray  
Stand still when you're in the dark  
Listen to your heart and pray for God's will  
Stand still, adrift in the wind  
Your voice within will be your best friend  
Stand still and pray, stand still
