Tom Tom

Bubble Burst

Farther down along the range
Where the wise ones kept at bay
Those that wished secrets stay secret
For morning mass
I tell myself, it's where I belong
Among the waves and the ones now gone
With my ancestors drums
Here comes the morning man
He's gonna tell you where you stand
Gonna try to undertake what's falling
He's calling you
Here comes the morning man
He's here and yes, he can
Penetrate the veils that you're holding
He's unfolding you
Sha, la, la, la, la
Oh, sha, la, la, la, la
Oh, sha, la, la, la, la
Sha, la, la, la
This sign of a solstice bare
Where autumn shows its truthful air
Is when I'm vowed to empty scare
My precious stars of evening prayers
I remind myself it's who you are
An orphan soul on a distant star
Listening for those bells
Here comes the morning man
He's here and yes, he can
Penetrate the veils that you're holding
Unfolding you
Here comes the morning man
He's gonna tell you where you stand
Gonna try to undertake what's falling
He's calling you
What I shall write?
I don't need anyone but you
[Incomprehensible]Until the morning takes apart
And leaves on my mind
Here comes the morning man

Here comes the morning man
Here comes the morning man
He's watching, he's watching
Here comes the morning man
He's watching, sha, la, la, la, la, la
Here comes the morning man
He's watching, he's watching
Sha, la, la, la, la, la
Sha, la, la, la, la, la
Sha, la, la, la, la, la
Here comes the morning man
He's watching, he's watching
Sha, la, la, la
