Following The Sun

Enigma

Following the sun to find the one
Who's giving you the wings to fly
Following the sun, the golden one
Losing sense for space and time
I'm following the sun to find the one
Can you feel the waves of life?
Can you hear the sigh of love?
Do you believe in it? Oh
Following the sun just for the one
Till you'll find the door you thought, oh
Following the sun like everyone
You're searching for a sign of hope
I'm following the sun to find the one
Have a look up to the sky, see the billion stars above
'Cause maybe on one of them, you'll spend your further life
'Cause maybe on one of them, you'll spend your further life
I'm following the sun to find the one
Have a look up to the sky, see the billion stars above
'Cause maybe on one of them, you'll spend your further life
'Cause maybe on one of them, you'll spend your further life
'Cause maybe on one of them, you'll spend your further life
