December Love

New Kids On the Block

Oh-oh, mm-mh
Yeah, yeahHey love, come on over here
Look up in the sky, see how bright it's shining for us
That one right there
That's the star we wished on on that winter when we
Fell in love in December
This is the time we get to rememberSo hold me like it's our last goodbye
Touch me just like it's the first time
Kiss me and if you stop to cry
It's okay, I get emotional too
We got a love that lasts forever
Through the stormy weather
We got that December love
Look at how far we've come together
We made it through November
We got that December love[?] through minor colds
'Cause even when it's snowing I'll be there
To keep you warm till it stops
But we're inside now, so...
Put on a record with stylistics
Or New Kids On The Block
This December
We're gonna make it one to rememberSo hold me like it's our last goodbye
Touch me just like it's the first time
Kiss me and if you stop to cry
It's okay, I get emotional too
'Cause we got a love that lasts forever
Through the stormy weather
We got that December love
Look at how far we've come together
We made it through November
We got that December loveHolidays are here
And with every passing year
I love you more and more
(I love you) More and moreWe got a love that lasts forever
Through the stormy weather
We got that December love
Look at how far we've come together
We made it through November

We got that December loveSo hold me like it's our last goodbye
Touch me just like it's the first time
Kiss me and if you stop to cry
It's okay, I get emotional tooWe got a love that lasts forever
Through the stormy weather
We got that December love
Look at how far we've come together
We made it through November
We got that December love
