Around The World

Nikka Costa

Everyone around the world
Will find themselves about to fall
In my case I've gotten down, gotten up
Laid back down, filled my cup and had to crawl
But it's clear that it's my time to be here
And I'm gonna make it clear to you all
Spend our lives trying to get over
On this roller coaster that we're traveling on
And everyday we ride the elevator
No matter where it takes ya
Up or down
Don't let it get you down
Love will always be your soldier
Wiping every tear you cry
Don't let it get you down
Yours for always and forever
Yours until the end of time
Everyone around the world
Will find themselves with the chance to fly
In that second we decide if we ride
If we'd be satisfied to pass it by
But it's clear that it's our time to be here
And we've gotta make it clear all our lives
We spend our lives trying to get over
On this roller coaster that we're traveling on
And everyday we ride the elevator
No matter where it takes ya
Up or down
So don't let it get you down
Love will always be your soldier

Wiping every tear you cry
No, don't let it get you down
Yours for always and forever
Don't let it get you down
Yours until the end of time
Come on
Everyone around the world
Don't let it get you down

Everyone around the world
Don't let it get you down
When ain't nothin' goin' right
Love will be your soldier
When all you can do is cry
Love will be your soldier
When no one is around
Love will be your soldier
When your world is tumbling down
Love will be your soldier
When ain't nothin' goin' right
Love will be your soldier
When all you can do is cry
Love will be your soldier
When nobody is around
Love will be your soldier
When your world is tumbling down
Love will be your soldier
Everyone around the world
