

She's Like

Ginuwine

Yeah, like diamonds, like pearls
Like diamonds my world
Oh, she's like, yeah, I don't know
But listen, listen From the first time I saw you, you were looking hot
You were stunned up in your coupe, in your topless drop
I see bags on the passenger side, I see you shop a lot
Girl, you look so fly, I need what you got I know you feel it too, just by your attitude
Ain't tryin' to play no games, I just wanna get with you
Girl, you just need to know that I want you in my world
And all I know is that she's like She's like the spinners on them big things
She's like the diamonds in my pinky ring
And she's more like the love I got for when I sing
Girl, you are my everything, my everything I'm digging your seven jeans and your baby fat
You telling me you got a man, I didn't ask you that
Hurry up, hurry up, let's go, won't you swing my way
I can tell that you really wanna roll, won't you be my baby I know you feel it too, just by your attitude
Ain't tryin' to play no games, I just wanna get with you
Girl, you just need to know that I want you in my world
All I know is that she's like She's like the spinners on them big things
She's like the diamonds in my pinky ring
And she's more like the love I got for when I sing
Girl, you are my everything, my everything So special, don't know what it is
But I know one thing that is for sure
And when I saw your face, something inside of me
Told me that you would be the only girl for me
And you soon will be mine She's like the spinners on them big things
She's like the diamonds in my pinky ring
And she's more like the love I got for when I sing
Girl, you are my everything, my everything She's like the spinners on them big things
She's like the diamonds in my pinky ring
And she's more like the love I got for when I sing
Girl, you are my everything, my everything Oh, diamond of my pinky ring
Oh you are, oh, yeah
Poke it to them
And we gonna do it like that
