One Road To Freedom

Ben Harper

Tell me which road, which road are you travellin'?
Which road are you travellin' on?
Who will you turn to
When the light, when the light has gone?
I said, I hear somebody callin'
I said, I hear somebody callin' to me
You said there's so many roads to travel
There's just one can set you freeI said there's just one road, one road to freedom
I said there's just one road, one road to freedom
There's just one, there's just oneIn my life, in my life I have been blessed
An' in my life I have been cursed
I have lived the best of times
And I have suffered, I have suffered the worst
Do you know which road you're travellin'?
Do you know where you want to be?
You said, there's so many roads to travel
There's just one, set you freeI said there's just one road, one road to freedom
I said there's just one road, one road to freedom
I said there's just one road, one road to freedom
There's just one, there's just one
There's just one, there's just one
