Pilgrimage

izna

Anticipation fills the air
Hypnotic masses stand and stare
Incantations chanted quietly
In a trance like state we are oneWe share the same vision
United forever
No longer imprisoned
As we were beforeSo far from home, I'm gonna meet my maker
No longer alone, I'm on my way there
Long distance to go, a giver not a taker
Chosen to fight, kill the deceiver tonightTelepathic information
Spreads to all metallic minds
Instructions for the final mission
Leads us to the holy fieldWe share the same vision
United forever
No longer imprisoned
As we were beforeSo far from home, I'm gonna meet my maker
No longer alone, I'm on my way there
Long distance to go, a giver not a taker
Chosen to fight, kill the deceiver tonightWe share the same vision
United forever
No longer imprisoned
As we were beforeSo far from home, I'm gonna meet my maker
No longer alone, I'm on my way there
Long distance to go, a giver not a taker
Chosen to fight, kill the deceiver tonight
