Disillusion

Beatsteaks

Look around, look around, we're all machines, destroy ourselves, there's no one else, there's no one else, who tell it like it is, we have no time, we have no time for stupid people with an ignorant mind. Open your eyes and realize, you have one life and live your dream! I'm afraid and sick, if I see your disillusion - I see your disillusion - I'm afraid and sick if I see your disillusion - I see your disillusion. Give yourself, yourself a chance, don't make the biggest mistake in your life, believe in yourself, do your things and give a fuck about what the other says. Trust? Real friends, real friends, real friends, you know, what I mean? Open your eyes and realize, you have one life and live your dream! I'm afraid and sick, if I see your disillusion - I see your disillusion - I'm afraid and sick, if I see your disillusion - I see your disillusion you disgust me - disgust me - you disgust me - disgust me - you disgust me - disgust me - you disgust me!
