Stage

Renzu

I wanna feel, I wanna try
I wanna rock in the city tonight
I wanna deal, don't wanna die
I wanna bring my Captain Hook into the lightPeople I've seen my day
Ranting and raving this beauty away
We are by and large the same
But words are too feeble, they cannot containHe was a rock and roll messiah
She was known for her childcare
Truth is gonna give up the world
If you can give up the stage, the stage
The stage, come onI wanna feel, I wanna try
I wanna rock in the city tonight
I wanna deal, don't wanna die
I wanna bring my Captain Hook into the lightPeople I've seen my day
Ranting and raving this beauty away
We are by and large the same
But words are too feeble, they cannot containHe was a rock and roll messiah
She was known for her childcare
Truth is gonna give up the world
If you can give up the stage
If I can give up the stage
If we can give up the stageCome to this, well I can't come to you don't do this
Wake me up tonight
Come to this, well I can't come to you don't do this
Wake me up tonight, tonight, tonight
Come on motherfuckerHe was a rock and roll messiah
How could you stand today beside her
Messiah, beside herGive me the stage, give me the stage
Beside her, beside her, beside her
