Shatter

Mordred

I know that I don't always realize
How sleazy it is messing with these guys
But somethin' about just being with you
Slapped me right in the face, nearly broke me in two
And it's a mark, I've taken heart
And I know I will carry with me for a long, long time
I don't know if I could drive a car

Fast enough to get to where you are
Or wild enough not to miss the boat completely
Honey, I'm thinkin' maybe, you know, just maybe
I don't know if I could fly a plane
Well enough to tailspin out your name
Or high enough to lose control completely
Honey, I'm thinkin' maybe, you know just maybe, maybe
