# 2 Days After Midnite

## Wet Wet Wet

Strung out on the east side of town
Weighing up my latest pleasure
In three days time I'll be given a sign
That puts me in a place I get highMeanwhile there's no reply
It's a one way conversation
In three days time I'll be given a sign
That puts me with the stars in the skyAnd with the sun in my eyes
You know that I can't see
Just like the stars in the sky
You know, I'll beCounting down the headlights, baby
Brings me down to Earth
2 days after midnight, baby
I'll be thereStrung out on the edge of the east side of town
Weighing up my latest pleasure
In two days time, I'll leave it behind
And put it in a place I can findAnd meantime I'm drawing the line
It's a no win situation
In two days time I'll get the sign
Scaring myself outta my mindAnd with the sun in my eyes
You know that I can't see
Just like the stars in the sky
You know, I'll beCounting down the headlights, baby
Brings me down to Earth
2 days after midnight, baby
I'll be thereIf I disappear, that would make it clear
Strung out on the edge on the east side of town
Weighing up my latest measure
Freaking out on this sensation
Guarantees my destinationAnd with the sun in my eyes
You know that I can't see
Just like the stars in the sky
You know, I'll beCounting down the headlights, baby
Brings me down to Earth
2 days after midnight, baby
I'll be, I'll be, I'll be, I'll be thereCounting down the headlights, baby
Brings me down to Earth
2 days after midnight, baby
I'll be, I'll be, I'll be, I'll be I'll be thereCounting down the headlights, baby
Brings me down to Earth

2 days after midnight, baby
I'll be thereOoh, I'll be there, I'll be there, I'll be there
I'll be there, I'll be there, be there
Said, I'll be, I'll be, I'll be, I'll be there
