

# Head On

## The Movers

I was already late  
Just trying to get to my destination  
Kept my heart in a safe  
To avoid any complications  
Thought that I was okay  
But objects may be closer than they appear  
So I thought I was in the clear  
Didn't see it coming but now we're standing face to face  
You hit me head on  
In a dead on collision  
Feelings so strong  
You made me lose my vision  
Cause I thought that I could hear the brakes slam  
Spinning out and it's too late  
You hit me head on  
In a dead on collision  
With you  
I was running the light  
Trying to avoid the glances  
I was ignoring the signs  
Never wanting to take my chances  
But something about the way you said my name  
I came crashing into your lane  
Now I will never be the same

Didn't see it coming  
But, now we're standing face to face  
You hit me head on  
In a dead on collision  
Feelings so strong  
You made me lose my vision  
Cause I thought that I could hear the brakes slam  
Spinning out and it's too late  
You hit me head on  
In a dead on collision  
With you  
So I'll take my hands, right off the wheel  
See where this thing goes  
Cuz I kind of like the way it feels

Driving right off the road  
This happy accident with you has let me open up and just let go and lose control  
You hit me  
In a dead on collision  
Feelings so strong  
You made me lose my vision  
Cause I thought that I could hear the brakes slam  
Spinning it out and it's too late  
You hit me head on  
In a dead on collision  
With you
