The Big Pitch

Giant

Hey little babe, can I talk to you?
I can change your life, make it feel brand new
Shape your body to give you back your youth, ooh it's true
But there's just one thing, it's gonna cost you, yeah youSame old story, same old song, just a fool and his money
Sugar parties don't last long, in chasin' that dream
Same old story, same old song, oh it ain't very funny
Oh but still you're blind, well you're dreamin' your life away? Oh yeahHey little boy, are you lonely at all?
There's a million girls want you to call
They can cover all your wildest fantasies, oh with ease
But there's just one thing, it's gonna cost you, yeah youSame old story, same old song just a fool and his money
Sugar parties don't last long, in chasin' that dream
Same old story, same old song, oh it ain't very funny
Oh but still you're blind, while you're dreamin' your life away, all in a dayHey big sucker, can I talk to you?
This is no big pitch, every word is true
I can sell you everything you need, make you bleed
Think it over, it's gonna cost you, yeah you, oh youSame old story, same old song just a fool and his money
Sugar parties don't last long, in chasin' that dream
Same old story, same old song, no it ain't very funny
Same old story, same old song
Oh but still you're blind, when you're dreamin' your life away, away
