Just One Kiss

Nick Carter

Just one, just one
Just one, just oneDon't turn away, don't close the door
I couldn't take it
We've got find out for sure
Before there's no turning backIf this is a start of the end of the road
I've gotta ask before you goIf I could have just one kiss
If that's all it is, I know that it's over
If I could have just one kiss
If there's something more, we could start overIf I could have just on kiss
Just one
If I could have just one kiss
Just oneI've been a fool just standing by
Watching it comes to this
But now I'm here to stand and fight
For all the promisesIf this is a start of the end of the road
I wouldn't back, I'd let you goIf I could have just one kiss
If that's all it is, I know that it's over
If I could have just one kiss
If there's something more, we could start overIf I could have just one kiss
Just one
If I could have just one kiss
Just oneWe don't have to find a way forward
We just have to find what we missed
So what if we look like we're crazy
For hanging it all on thisDon't turn away, don't close the doorIf I could have just one kiss
If that's all it is, I know that it's over
If I could have just one kiss
If there's something more, we could start overIf I could have just one kiss
Just one
If I could have just one kiss
Just oneJust one, just one
Just one, just one
