Until I Die

Ben Kweller

I'm so sorry, I'm so paranoid
It's something in my head that I can't avoid
And I wanna be with you
And always will until I die
Until I die, ohh, until I die
I'm so sorry that I've been like this
You're the one thing in this world I don't wanna miss
And I wanna be with you
And always will until I die
Until I die, ohh, until I die
Frost on the window
I'm in for the night
You've got a phone
Keep me in mind
Just give me a try
I'm so sorry that I've been so sad
But you are the best friend that I ever had
And I love you
And always will until I die
Frost on the window
I'm in for the night
You've got a phone
Give me a try
It's so on my mind
So sorry, I'm so paranoid
I'm so sorry, I'm so paranoid
I'm so sorry, I'm so paranoid
I'm so sorry, I'm so paranoid
And I wanna be with you
And always will until I die, ohh, until I die
