Metal Queen

Bif Naked

Metal queen ive never been or a punker chick
Often heard but never seen and dated mostly dicks
Angry white females a term you should save for your mothers
I'd be sleeping the whole tour if I had my druthers
I don't party I ain't down with bull shit anymore
To many times I came to with the devil at my door
That great word alternative applied inn 1989
Now it's a cop out catch fraise that covers us like grime
Music will be to you and me whatever it becomes
Sometimes makes s fell happy and sometimes makes us glum
The only thing I have to say and you may think its bent
But it's all just about emotions up for entertainment
