The Saddest Landscape

We burn our hopes, they don't fit us anymore.
We burn our hopes and (???) in the embers.
As our past slowly comes undone we are reminded everything we love can destroy us.
We aren't leaving until you remember what it feel like on that first night.
Steal it back, this one is ours.
Steal it back, it dies with us.
I just never thought the end was so near.Please let us forget.
Let us forget what we are fighting for so we can go back to cherishing every morning because it's amazing what you remember when you are trying to forget the bad times so I surround myself with reminders of the person that I want to be.
Because I can do better, we can do better.
I am ready to take my second chances.
I don't want to feel alone anymore.
I don't want to feel alone anymore.
I don't want to feel alone anymore.
