Whole Lotta Crazy

Turk Tresize

Well I ain't no, well I ain't no-one
To the saying, that you had your run
Stay away from them fools
They'll only waste your time
Yeh stay away from them fools
They'll steal your rhythm and rhyme

Don't complicate it, try hard to over-rate it
Said, it's been a whole, whole lotta crazy
It's been a whole, whole lotta crazy

Don't ever doubt it, don't ever change your mind
If you want it, some freedom of mind
Yeh, it's all coming down, get your head out the clouds
Yeh, it's all coming down, don't swallow the crown

Don't complicate it, try hard to over-rate it
Said, it's been a whole, whole lotta crazy
It's been a whole, whole lotta crazy

(Guitar Solo)

It's been a whole, whole lotta crazy
It's been a whole, whole lotta crazy
It's been a whole, whole lotta crazy
It's been a whole, whole lotta crazy
It's been a whole, it's been a whole
