My Block

The Chiffons

Ooh yeah
And it sounds so good, it sounds so nice
(Come down to my block)
Come around my way
That's where the players play
(On my block)
Do what you wanna do
Fill up your cup with gin and juice
(Come down to my block)
We'll give you what you need
Where are all the guest's
(On my block)
I think, it's plain to see
It's definitely the place to be
(Come down to my block)
This sun is beaming another Saturday
It's time to kick it and blow my cares away
Nobody trippin' just tryin' to have some fun
And if you need some, got drinks for everyone
This is your chance tonight
Everything's goin' to be alright
It's our big superstore
It's time to drink some more
(Come down to my block)
Come around my way
That's where the players play
(On my block)
Do what you wanna do
Fill up your cup with gin and juice
(Come down to my block)
We'll give you what you need
Where are all the guest's
(On my block)
I think, it's plain to see
It's definitely the place to be
(Come down to my block)
Come take a ride with me in a big black truck
And all of you player haters, won't you get off my nuts?
I know a place, you can go and meet everybody, I know

It's got all things a player likes
Like sunshine and straight thighs
We can play everyday, it's summertime baby
(Summertime baby)
I wanna play, I wanna stay
In case you didn't know
(Come down to my block)
Come around my way
That's where the players play
(On my block)
Do what you wanna do
Fill up your cup with gin and juice
(Come down to my block)
We'll give you what you need
Where are all the guest's
(On my block)
I think, it's plain to see
It's definitely the place to be
(Come down to my block)
So bring some Coney Isle
We're gonna have a real good time
Hey, and you can't have none of mine
All you ladies bring your friends
Gotta pool, let's throw them in
Oh yeah, it's goin' down tonight
This is your chance tonight
Everything's goin' to be alright
It's our big superstore
It's time to drink some more
(Come down to my block)
Come around my way
That's where the players play
(On my block)
Do what you wanna do
Fill up your cup with gin and juice
(Come down to my block)
We'll give you what you need
Where are all the guest's
(On my block)
I think, it's plain to see
It's definitely the place to be
(Come down to my block)
(Come down to my block)
Come around my way
That's where the players play

(On my block)
Do what you wanna do
Fill up your cup with gin and juice
(Come down to my block)
We'll give you what you need
Where are all the guest's
(On my block)
I think, it's plain to see
It's definitely the place to be
(Come down to my block)
(Come down to my block)
Come around my way
That's where the players play
(On my block)
Do what you wanna do
Fill up your cup with gin and juice
(Come down to my block)
We'll give you what you need
Where are all the guest's
(On my block)
I think, it's plain to see
It's definitely the place to be
(Come down to my block)
