Dance With Me

Natalie

Come over here and dance with me
Aren't you likin' what you see
The beat is all over me
Rushin' through my body
Let's take it to the floor
Come on and give me more
I want to show you now what I came here for
Ooh, what I came here forI wanna rock with you
I wanna dance with you
So can you come a little closer
I wanna get to know yaYeah
I want to take you to a place where I let go so free and dance all night
Come over me
I can take you so far to places you've never been
I can show you the starsJust follow me, I know the way
I'll take the lead, know what to say
Whichever round you want to stayI got to get it, get it
Are you wit' it, wit' it
YeahI wanna rock, I wanna rock, I, I, I wanna rock right nowCome over here and dance with me
Aren't you likin' what you see
The beat is all over me
Rushin' through my body
Let's take it to the floor
Come on and give me more
I want to show you now what I came here for
Ooh, what I came here forBy the way you dance
I can tell that you like to take control with everything you do
Well, baby watch me move
Our bodies oh so close, to our favorite song
We're in a trance, everyone is goneCome over me, I can take you so far to places you've never been
I can show you the stars (dance all night)
I said
Come over me, I can take you so far to places you've never been
I can show you the starsJust follow me, I know the way
I'll take the lead, know what to say
Whichever round you want to stayI got to get it, get it
Are you wit' it, wit' it
YeahI wanna rock, I wanna rock, I, I, I wanna rock right now
I wanna rock, I wanna rock, I, I, I wanna rock right now

I wanna rock, I wanna rock, I, I, I wanna rock right now
I wanna rock, I wanna rock, I, I, I wanna rock right now
I wanna rock, I wanna rock, I, I, I wanna rock right nowCome over here and dance with me
Aren't you likin' what you see
The beat is all over me
Rushin' through my body
Let's take it to the floor
Come on and give me more
I want to show you now what I came here forCome over here and dance with me
Aren't you likin' what you see
The beat is all over me
Rushin' through my body
Let's take it to the floor
Come on and give me more
I want to show you now what I came here for
