Thief

Kosheen

Stolen not shared
You thief
I thought you were an angelReluctant to recognise
It's overYou want it back
You keep your reasonI don't want it
You want it back
You keep your freedomI don't want it
You want it back
You keep your jacketI don't want it
You want it back
You want itYou want it back
You keep your freedomShaken, I'm scared
I thought you'd make it easy
Our failure to read the signs
That said it's overYou want it back
You keep your reasonI don't want it
You want it back
You keep your freedomI don't want it
You want it back
You keep your jacketI don't want it
You want it back
You want itYou want it back
You keep your freedomKeep your freedom
Keep your freedomYou want it back
You keep your reasonI don't want it
You want it back
You keep your freedomI don't want it
You want it bac
You keep your jacketI don't want it
You want it back
You want itYou want it back
You keep your freedom
