Girl Like Me

Ladyhawke

Im on a high and I dont even know why
Im gonna shin myself before your innocent eyes
Youre ready now to forget what we have
Youd better seal it tight before the memories go badBetween devil in the deep blue sea
I saw you dancing with a girl like me
I watched in silence as you held her hands
Its all down the river for a girl like me
2x For a girl like meIts getting late and I pretend not to see
Im planning my move in, just you sounded creepy
I I I I I I I I I heard youre leaving and Ill never know whyBetween devil in the deep blue sea
I saw you dancing with a girl like me
I watched in silence as you held her hands
Its all down the river for a girl like me
2x For a girl like meI I I I I I I I I heard youre leaving and Ill never know whyBetween devil in the deep blue sea
I saw you dancing with a girl like me
I watched in silence as you held her hands
Its all down the river for a girl like me
2x For a girl like me
