

# You Fool

**Rahim Quazi**

It's in your eyes, it's in your smile  
You couldn't hide it if you tried  
You can't deny, it's on your mind  
And I won't lie to you, I feel it too  
Just close your eyes and kiss me, you fool  
What are you waiting for, it's just me and you  
This moment is yours, you know what to do  
Just pull me close to you, you fool  
Without words, without a sound  
I can still hear you speak  
Don't be afraid, there's no doubt  
There's something between us  
To believe in, oh

Just close your eyes and kiss me, you fool  
What are you waiting for, it's just me and you  
This moment is yours, you know what to do  
Just pull me close to you, you fool  
It's all in your hands  
So hold me while you can  
Don't let this go  
You fool, you fool  
What are you waiting for?  
Kiss me  
You know what to do  
Just pull me close to you, you fool  
Kiss me
