Outer Space

Ace Frehley

You said you wanted my love
To be your party your gain
But when I came from above
I looked around but you turned away
And now you are scratching and crawling
Your way up from the grave
You should have stayed in the dirt girl
It's like I told youIt's like a told you
I came from outer space
That's how I know your name
Just like a told you
I came from outer space
I wanna take you awayYou took a drink of my sweet love
And then the poison took
You hooked me up to your sick machine
And then I blew you up
You were one in a billion
Before the button was pushed
You should have stayed in the dirt girl
It's like I told youIt's like a told you
I came from outer space
That's how I know your name
I'm sick and tired of the human race
I want to take you away
It's like I told you
I came from outer space
That's how I know your name
I'm sick and tired of the human race
I want you by my sideI want to take you to heaven
Take you away from this hell
I want to take you to heaven
Take you away from this hellIt's like a told you
I came from outer space
That's how I know your name
I'm sick and tired of the human race
I want to take you away
It's like I told you
I came from outer space
That's how I know your name

I've given up on the human race
I'm gonna blow 'em away.So let me take you to heaven
Take you away from this hell
I want to take you to heaven
Take you away from this hell
I want to take you to heaven
Take you away from this hellThe Earth is rollin' a 7This place is gonna be fine
