Turn It Out

The Kicks

Light the fire let it
Radiate through the night
Cause we're never going back again
Feel your heartbeat
Let it vibrate through the ground
Shaking everything aroundIs there anybody here?
That's not frightened by the sound
Of wasting away in America
Get up, get out
We're gonna turn it out nowTurn your voice down
Give 'em something else to hear
Shout it through the atmosphere
Sonic spaces
And vinyl traces surround
It's time to put the needle downIs there anybody here?
That's not frightened by the sound
Of wasting away in America
Get up, get out
We're gonna turn it out nowGet up, get outWe're gonna turn it out now
