

Fly

Just a Band

I will fly away, and you're gonna see me no more
I will fly away, and you're gonna see me no more I will fly away, and you're gonna see me no more
I will fly away, and you're gonna see me no more
I'm going to a place where everybody's funky
There's music all the time and everyone is smiling
I'm tired of paying rent and always spending money
I'll sit on the piano and play something spacey
With my new friends, we will rock the sky
And we won't pretend everything's all right I'm going to a place where everybody's funky
I'm going to a place where everybody's funky
I'm going to a place where everybody's funky- nky
I'm going to a place where everybody's funky
Celestial in its implications
Galaxies collide and converge with grace
The outer limits of plane and sound
Fly with us
Do you like to fly? I will fly away, and you're gonna see me no more
I will fly away, and you're gonna see me no more
Do you like to fly?
I'm going to a place where everybody's funky
I'm going to a place where everybody's funky
I'm going to a place where everybody's funky
I'm going to a place where everybody's funky It's the hour of tribe and vibration
Blued and the abstract truth
Voyage through acres of space
Leave everything behind
Do you like to fly?
Do you like to fly?
Do you like to fly?
Do you like to fly? I will fly away
Do you like to fly?
I will fly away Do you like to fly?
I will fly away
Do you like to fly?
I will fly away I'm going to a place where everybody's funky (x4)
I will fly away (x4)
