Stick by Me

Lindsay Katt

We'll be like two sweet peas,
and we'll be, the seamlessly heart swept
and we'll be, the great adventurers and we'll be, undefeated
If you stick with me then I will stick with you
If you can stick by me,
then I can stick by you All the way through
We'll be unforgettable
and we'll be, the best in the show
and we'll be, the ones we lean on and we'll be, together on the road
Stick with me
and I will stick with you
If you can stick by me, then I can stick by you All the way through
If it came according to me,
I might just say your just my type.
And if it came according to you, I think you
know what I might like
but then again, since we're just friends, its
hard to know where we'd combined
I want to call us we
but it's not always easy
We'll be dangerous and cool
and we'll wear our black sunglasses
and we'll see we haven't got them fooled and we'll know it doesn't matter
if you stick with me
then I will stick with you
If you can stick by me,
then I can stick by you All the way through
