

# Heartbreak Avenue

Will Hoge

She was just sixteen  
With a pack of cigarettes and a pawn shop ring  
She wanted things to turn out like she'd seen right there  
On that silver screen So she hit the road  
With her thumb in the air and a ring in her nose  
She had a tattoo of a butterfly because that's the way it goes  
When you don't know, just which way the wind will blow Hey girl  
Where are you going to  
Say that you'll be the queen  
Of Heartbreak Avenue She met a boy out there  
With a silver El Dorado and jet black hair  
He had a tattoo of Elvis so they took their clothes off to compare  
And well you know just how far these things can go Then the sun came shining bright  
And true love in the morning doesn't feel like it is last night  
He left a letter that said goodbye  
Hold on tight now he's gone so she'll just move along Hey girl  
Where are you going to  
Say that you'll be the queen  
Of Heartbreak Avenue So you say that you don't know how  
Your broken dreams just drag you down Hey girl  
Where are you going to  
Say that you'll be the queen  
Of Heartbreak Avenue Hey girl  
Will you go with children  
Hey girl
