Cool Water

Laura Veirs

Cool water
Cool water
Cool waterCool water
Cool water
Cool waterI want to fly like a scroll unfolding
And float to a stone ledge
Wait for a moment 'fore spilling
Words to a hedgeAnd goin' away
Like a poem closed in a dresser drawer
You could say that's what they're forYou want to melt like bullion in a golden flow
And roll on down the hills
Back to the cracks, back to the deep
Where you can harden and get your fillOf cool water in surround sound
Cool water in surround sound
Cool water in surround soundOf cool water in surround sound
Cool water in surround sound
Cool water in surround soundWell, my mackinaw feels too tight
My frozen jaw begs for the break of night
Songbirds and sounds of dawning light
Songbirds and sounds of dawning light
