Faster Master

The Spores

Got into a car
with a
perfect stranger
I like to go fast too
with my
head out the window

Take me away
way away from here
Take me away
way away from here

(Chorus:)
Hey there master hit the gas
it feels like I'm flying when you make it go fast
This is our time, me and you
You can take a bullet
and shake it off too
Pedal to the metal put your hammer down
And take me to the other side of town
Ten seconds flat, faster master
Faster master

Taken' it all in
everybody else is out, working on a leash
Feelin' superior
Feelin' superior

Take me away
way away from here

(repeat chorus twice)
