

Let's Get the Mood Right

Johnny Gill

You look sweet as ever
Just how I picture you
Swear that you're looking better
And that's so hard to do
Girl, I hope you don't mind
If I reminisce on the time
When I was your guy and you were my girl
There was nobody else in my world
Let's get the mood right
Turn on your heart light
Put on that old red dress
Baby, let's cruise (Baby let's cruise)
Baby it's your night
Blow out the candlelight
We're going out tonight
Just me and you
Guess there ain't no denying
You just get better with time
You don't think I'm sincere
Let me make it perfectly clear
You still make me rise
With those sweet bedroom eyes
And how could I forget?
How much I love the sex
And you're still the love of my life
Let's get the mood right
Turn on your heart light
Put on that old red dress
Baby, let's cruise (Oh, I wanna groove tonight)
Baby it's your night
Blow out the candlelight
We're going out tonight
Just me and you
When I think of our moments together
It just touches my heart
Don't you know it makes me wonder
How we could have fallen apart
Baby I swear from this moment on
I will be there
Keeping it going on
For the rest of my life
I'll be singing
My, my, my, my, my, my
Let's get the mood right

Turn on your heart light
Put on that old red dress
Baby, let's cruise (Oh, I wanna groove tonight)
Baby it's your night
Blow out the candlelight
We're going out tonight
Just me and you Let's get the mood right
Turn on your heart light
Put on that old red dress
Baby, let's cruise (Oh, I wanna groove tonight)
Baby it's your night
Blow out the candlelight
We're going out tonight
Just me and you We're gonna groove, yeah, listen
Baby let's cruise (Baby let's cruise)
Let's just get in the mood (Just me and you)
Baby let's cruise (I want to cruise)
Let's just get in the mood (Just me and you)
Baby let's cruise (Baby let's cruise)
Let's just get in the mood (Baby let's cruise)
Baby let's cruise
Let's just get in the mood (Baby let's cruise)
