Turn to Me

St. Louis Jesuits

From all the taking downs, to the drive in far away
As if we're lost and found, removing us every day, yeah
Pushing things too far or never moving it along
Forgiving and forget only makes one person strong
Hoping and fighting, resisting, denying with your classic words of
Turn to me, that's what you say when you're
Burning me, that's what you do when you
Turn me, need more days and time to turn you off
Turn to me, that's what you say when you're
Burning me, that's what you do when you
Turn me, need more days and time to turn you off
There's no familiar face or a hand to cling upon
We take the short distance but it took so very long, long
Hoping and fighting, resisting, denying with your classic words of
Turn to me, that's what you say when you're
Burning me, that's what you do when you
Turn me, need more days and time to turn you off
Turn to me, that's what you say when you're
Burning me, that's what you do when you
Turn me, need more days and time to turn you off
Knowing that we'll jump a little too high to live
Knowing that it's safe but not safe enough to give
Your heart, your dreams, no give, no receive
Respect, believe, turn to me
Time to turn you off
Resisting, denying
Turn to me, that's what you say when your
Burning me, that's what you do when you
Turn me, need more days and the time to turn me off
Turn to me, that's what you say when your
Burning me, that's what you do when you
Turn me, need more days and the time to turn me off
Turn to me, that's what you say when your
Burning me, that's what you do when you
Turn me, need more days and the time to turn me off
Turn to me, that's what you say when your
Burning me, that's what you do when you
Turn me, need more days and the time to turn me off
Turn to me, that's what you say when your

Burning me, that's what you do when you
Turn me, need more days and the time to turn me off
Turn to me, that's what you say when your
Burning me, that's what you do when you
Turn me, need more days and the time to turn me off
