

Your Surrender

Neon Trees

I got close to your skin while you were sleeping
I taste the salt on your hands
I reached out to touch you, the morning light disarms you
Won't you let me in? Oh, how long till your surrender?
Oh, how long till your surrender?
It's a long way for heartbreak
Let your heart wait and bleed
Oh, how long till your surrender to me? I become your shadow, I'd love but don't know how to
I'm always lost for words
You look like a thousand suns, I wanna be
The only one left when your day is done Oh, how long till your surrender?
Oh, how long till your surrender?
It's a long way for heartbreak
Let your heart wait and bleed
Oh, how long till your surrender to me? I can't have you close so I become a ghost
And I watch you, I watch you
Maybe if you stay we could die this way
I won't stop you, I won't stop you Oh, how long till your surrender?
Oh, how long till your surrender?
Oh, how long till your surrender?
Oh, how long till your surrender? It's a long way for heartbreak
Let your heart wait and bleed
Oh, how long till your surrender to me?
Yeah, to me It's a long way for heartbreak
Let your heart wait and bleed
Oh, how long till your surrender to me?
